

# SENATE BILL 315: North Carolina Farm Act of 2019.

**This Bill Analysis  
reflects the contents  
of the bill as it was  
presented in  
committee.**

2019-2020 General Assembly

<b>Committee:</b>	House Finance. If favorable, re-refer to Judiciary. If favorable, re-refer to Rules, Calendar, and Operations of the House	<b>Date:</b>	July 11, 2019
<b>Introduced by:</b>	Sens. B. Jackson, Sanderson, Johnson	<b>Prepared by:</b>	Chris Saunders Staff Attorney
<b>Analysis of:</b>	PCS to Sixth Edition S315-CSTQf-29		

**OVERVIEW:** *Senate Bill 315 would make various changes to laws concerning agriculture in the State. The Proposed Committee Substitute (PCS) makes the following changes from the Sixth Edition:*

- *Makes changes to definitions and conforming changes concerning the classification of smokable hemp as marijuana under the North Carolina Controlled Substances Act, effective December 1, 2019.*
- *Adds a Class 2 misdemeanor for selling hemp, hemp products, or hemp extracts to a person less than 18 years old.*
- *Removes Sections 28 through 30.*

## CURRENT LAW AND BILL ANALYSIS:

### IMPLEMENT A STATE HEMP PROGRAM IN ACCORDANCE WITH SECTION 10113 OF THE FEDERAL AGRICULTURE IMPROVEMENT ACT OF 2018, TO BE ADMINISTERED BY THE NORTH CAROLINA HEMP COMMISSION UNTIL JULY 1, 2021

Since 2015, as authorized by the federal Agricultural Act of 2014, the North Carolina Industrial Hemp Commission ("Industrial Hemp Commission") has administered a pilot program to cultivate industrial hemp having a delta-9 tetrahydrocannabinol (THC) concentration of not more than three-tenths of one percent (0.3%) on a dry weight basis in the State for research purposes. The federal Agriculture Improvement Act of 2018 (P.L. 115-334), also known as the federal Farm Bill of 2018, removed hemp from the federal Controlled Substances Act and generally authorized the production of hemp meeting the same standard for THC, subject to a State plan or a plan established by the United States Department of Agriculture (USDA).

**Sections 1 through 7** would establish a State program for the cultivation and handling of hemp by amending the powers and duties of the Industrial Hemp Commission and the tax and criminal treatment of hemp in several ways:

- **Section 1** would rename the Industrial Hemp Commission as the North Carolina Hemp Commission ("Hemp Commission"). The Commission would expire July 1, 2021, and the

# Senate PCS 315

Page 2

authority to administer the hemp program would then transfer to the Department of Agriculture and Consumer Services (DACCS). The changes to the sections in the Hemp Commission Article would do the following:

- **G.S. 106-568.50** would amend the legislative findings and purpose of the Hemp Commission.
- **G.S. 106-568.51** would amend the definitions related to hemp. Smokable hemp would be defined as "A material, compound, mixture, or preparation that allows THC to be introduced into the human body by inhalation of smoke" and would include whole or ground raw hemp plant material, including hemp buds and hemp flowers; hemp cigars; and hemp cigarettes. Smokable hemp would be excluded from the definition of a hemp product.
- **G.S. 106-568.52** would amend the membership of the Hemp Commission to include a representative from North Carolina A&T State University, a small farmer who is a historically underserved African-American farmer, and a member recommended by the Small and Minority Farm Program. This section would also sunset the Hemp Commission on July 1, 2021.
- **G.S. 106-568.53** would eliminate the powers and duties of the Hemp Commission related to research purposes and direct the Hemp Commission to adopt rules to carry out the State program, including prescribing sampling and testing procedures to ensure that hemp cultivated or handled in the program does not exceed 0.3% THC, and establishing a schedule of nonrefundable fees for administering the program.
- **G.S. 106-568.53A** would set out several standards for licensees to participate in the State hemp program:
  - No person would be allowed to cultivate or handle hemp without a license issued by the Hemp Commission.
  - In order to receive a cultivation license, a person would be required to be a qualifying farmer or conditional qualifying farmer for purposes of the sales tax exemption for farmers.
  - An applicant for a license from the Hemp Commission would be required to submit to and pay for an annual criminal background check.
  - A licensee would be required to provide to the Hemp Commission the legal description and global positioning coordinates of the licensee's fields or greenhouses, as well as written consent allowing law enforcement to enter all premises where hemp is cultivated and stored to conduct inspections or ensure compliance with the State program.
  - A person convicted of a felony relating to a controlled substance under State or federal law would be ineligible to obtain a hemp license for ten years following the date of the conviction.
  - A person who materially falsifies any information in an application for a license from the Hemp Commission would be permanently ineligible to obtain a license.
  - A license issued by the previously existing Industrial Hemp Commission would be valid for the term of the license. A person with a license from the Industrial Hemp Commission who wishes to modify the license would be required to obtain a new license from the Hemp Commission.

# Senate PCS 315

Page 3

- **G.S. 106-568.54**, requiring the Industrial Hemp Commission to raise private funds before beginning its operations, is no longer relevant and would be repealed.
- **G.S. 106-568.55**, setting out authorized research purposes for the cultivation of hemp, is no longer required by federal law and would be repealed.
- **G.S. 106-568.55A** would establish a \$250,000 bonding requirement for hemp handling licensees. A licensed hemp handler would not be required to furnish a bond if the handler only handles hemp cultivated by the handler.
- **G.S. 106-568.55B** would make the penalty for negligent violation of the State hemp program compliance with a corrective action plan, as required by the federal Farm Bill of 2018. However, a person who has three negligent violations in a five year period would be ineligible to obtain a hemp license for five years beginning on the date of the third violation.
- **G.S. 106-568.56** would maintain the civil penalties related to hemp set forth in current law.
- **G.S. 106-568.57** would make it a Class 2 misdemeanor to sell hemp, hemp products, or hemp extracts to a person less than 18 years old.
- **G.S. 106-568.58** would clarify no license is required to possess, handle, transport, or sell hemp products except as required by G.S. 106-139, which would be enacted by Section 12 of the bill. Smokable hemp is explicitly excluded from the definition of "hemp product."
- **G.S. 106-568.59** would establish the North Carolina Hemp Program Fund in DACS to be used by DACS and the Commission for the costs of personnel, program administration, testing, and any other costs incurred in administering the hemp program.
- **Section 2.(a)** would exempt hemp products and hemp extracts from the definition of "marijuana" in the State Controlled Substances Act. Smokable hemp would be included in the definition of "marijuana," except that a licensed cultivator or licensed handler may possess raw hemp plant material for the purpose of (i) selling the raw hemp plant material to a licensed handler or a person who may legally receive the raw hemp plant material in that person's jurisdiction, or (ii) processing the raw hemp plant material into a hemp product or hemp extract.
- **Section 2.(b)** would exempt THC found in hemp extracts and hemp products from being Schedule VI controlled substances in the State Controlled Substances Act.
- **Section 2.(c)** would provide that an individual who possesses a valid hemp license from the Hemp Commission would not be prosecuted for certain violations of the controlled substances act with respect to a commodity cultivated by the licensee with a THC level above 0.3%, unless the licensee committed the violation willfully, knowingly, or intentionally. For negligent production of cannabis sativa (L.) above 0.3% THC, a licensee's penalty would be compliance with a corrective action plan issued by the Hemp Commission.
- **Section 3** would establish an exemption to the unauthorized substances tax for hemp, hemp products, and hemp extracts, when those items are lawfully possessed in accordance with the State hemp program.
- **Section 4** would direct the Commissioner of Agriculture, in consultation with the Governor and the Attorney General, to submit a State plan for regulation of hemp production to USDA for approval, as provided by the federal Farm Bill of 2018.
- **Section 5** would amend the sunset of the existing Industrial Hemp Commission to make it sunset on December 1, 2019.

# Senate PCS 315

Page 4

- **Section 6** would direct the Hemp Commission to adopt temporary rules, and would make the temporary rules remain in effect until permanent rules that replace the temporary rules become effective.
- **Section 6.1** would repeal the hemp program as implemented by the Hemp Commission on July 1, 2021, to correspond with the Department taking authority over the program on that date.
- **Section 7** would provide the effective date for these sections. Section 1 of this act would become effective on the later of December 1, 2019 or 30 days after the effective date of regulations adopted by the United States Department of Agriculture pursuant to Section 297D of the federal Farm Bill of 2018. Section 2 of this act would become effective December 1, 2019, and applies to offenses committed on or after that date. Section 3 of this act would be effective for taxes imposed for taxable years beginning on or after July 1, 2019, and would expire July 1, 2021. Sections 4, 5, 6, and 7 of this act would be effective when they become law. Section 6.1 of this act would become effective July 1, 2021.

## **TRANSFER HEMP PROGRAM AUTHORITY TO THE DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES ON JULY 1, 2021**

**Sections 8 through 11** would transfer the authority to administer the hemp program from the North Carolina Hemp Commission to DACS after the Commission expires on July 1, 2021, and make conforming changes.

## **DIRECT DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES TO REGULATE CANNABINOID RELATED COMPOUNDS**

**Section 12.(a)** would define "cannabinoid related compounds" for purposes of allowing the Board of Agriculture to regulate those compounds. This term would not include smokable hemp.

This section would be effective when it becomes law, and would expire July 1, 2021.

**Section 12.(b)** would allow the Board of Agriculture to adopt rules to establish good manufacturing practices for manufacturing, packaging, labeling, or holding operations for cannabinoid related compounds derived from hemp. This section would also prohibit the manufacture or sale of cannabinoid related compounds without a valid license issued by the Commissioner of Agriculture. The Board would be directed to develop a schedule of license fees, including fees for out-of-State and online retailers. Fees collected pursuant to this subsection would be used by the Department to cover all reasonable costs of administering the licensing program.

This section would become effective January 1, 2020, and would expire July 1, 2021.

**Section 12.(c)** would, effective July 1, 2021, reenact the provisions of Section 12.(a) with conforming changes to account for the State hemp program being transferred to DACS on that date.

**Section 12.(d)** would, effective July 1, 2021, reenact the provisions of Section 12.(b) with conforming changes to account for the State hemp program being transferred to DACS on that date.

**Section 12.(e)** would direct the Board of Agriculture to adopt temporary rules to implement this section no later than November 1, 2019.

Except as otherwise provided, this section would be effective when it becomes law.

# Senate PCS 315

Page 5

## **ALLOW DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES TO MARKET HEMP**

**Section 13** would add hemp to the list of products eligible for a marketing referendum and provide that the Hemp Commission is the entity that provides certification and approval for the purpose of conducting the referendum until its expiration on July 1, 2021. After that date, the Board of Agriculture would be the certifying entity.

## **SMOKABLE HEMP**

**Section 14.(a)** would require the Department of Agriculture and Consumer Services, the North Carolina Industrial Hemp Association, the North Carolina Hemp Commission, the State Bureau of Investigation, and other law enforcement agencies and district attorneys as requested by the State Bureau of Investigation to meet at least quarterly to discuss best practices for the hemp industry. The Department of Agriculture and Consumer Services would be required to report any findings and legislative recommendations from these meetings to the Agriculture and Forestry Awareness Study Commission within 30 days of each meeting. This section would be effective when it becomes law.

**Section 14.(b)** would direct the State Bureau of Investigation to notify the Agriculture and Forestry Awareness Study Commission in writing when the United States Drug Enforcement Agency has adopted an approved immediate testing method to determine whether hemp is within the federally defined THC level for hemp. Upon receipt of this notification, the Agriculture and Forestry Awareness Study Commission would be directed to study whether the prohibition on the sale of smokable hemp should be repealed. This section would be effective when it becomes law.

## **REQUIRE UTILITY COMPANIES TO DISPOSE OF CERTAIN UNUSED EASEMENTS UNDER CERTAIN CIRCUMSTANCES**

**Section 15** would create a process by which the underlying fee owner of land encumbered by any easement acquired by a utility company, on which the utility company has not commenced construction within 20 years of the date of acquisition, may file a complaint with the Utilities Commission for an order requiring the utility company to terminate the easement in exchange for payment by the underlying fee owner of the current fair market value of the easement. If the utility company does not agree that the easement should be terminated, the utility company may request a determination from the Utilities Commission as to whether the easement is necessary or advisable for the utility company's long range needs for the provision of utilities to serve its service area, and whether termination of the easement would be contrary to the interests of the using and consuming public. If the parties cannot reach a mutually agreeable fair market value, the Commission would request the clerk of superior court in the county where the easement is located to appoint commissioners to determine the fair market value in accordance with the eminent domain valuation process.

This section would become effective October 1, 2019, and would apply to easements acquired on or after that date.

## **RIGHT-OF-WAY FOR LEFT-TURNING FARM EQUIPMENT**

# Senate PCS 315

Page 6

**Section 16** would prohibit the passing of self-propelled farm equipment by vehicles proceeding in the same direction when the farm equipment is making a left turn or signaling that it intends to make a left turn.

This section would become effective December 1, 2019, and would apply to offenses committed on or after that date.

## **EXPAND AGRICULTURAL OUTDOOR ADVERTISING**

**Section 17** would expand outdoor advertising near highway rights-of-way for bona fide farm property by increasing the size of the sign allowed, broadening the area where the sign could be placed, allowing all bona fide farms to place signs, and allowing the sign to stand year-round.

## **AGRICULTURE AND FORESTRY AWARENESS STUDY COMMISSION COCHAIR HOLDOVER**

**Section 18** would provide that a cochair of the Agriculture and Forestry Awareness Study Commission may continue to serve for so long as the cochair remains a member of the General Assembly and no successor has been appointed. A cochair of the Commission who does not seek reelection or is not reelected to the General Assembly would be allowed to complete a term of service on the Commission until the day on which a new General Assembly convenes.

## **ADD HUNTING, FISHING, SHOOTING SPORTS, AND EQUESTRIAN ACTIVITIES TO THE DEFINITION OF AGRITOURISM, AND LIMIT REGULATION OF CATERING BY BONA FIDE FARMS**

**Sections 20.(a) and 20.(b)** would add hunting, fishing, shooting sports, and equestrian activities to the listed activities that constitute agritourism for purposes of agritourism activity liability and county zoning. For purposes of these section, properties used for shooting sports shall comply with guidelines for design and site evaluation as established by the Wildlife Resources Commission. With respect to county zoning, a vote of the full board of county commissioners would be required to determine whether a property used for shooting sports is in compliance with the guidelines adopted by the Wildlife Resources Commission.

**Sections 20.(c) and 20.(d)** would prohibit local governments from requiring a business located on a property used for bona fide farm purposes, that provides catering services on and off-site from the bona fide farm property, to obtain a permit to provide catering services within the local government. These sections would not exempt the business from any health and safety rules adopted by a local health department, the Department of Health and Human Services, or the Commission for Public Health.

## **ENACT THE NORTH CAROLINA SWEETPOTATO ACT FOR THE PROMOTION OF NORTH CAROLINA SWEETPOTATOES**

**Section 21** would allow the Commissioner of Agriculture to register, license, and protect a trademark for the sale and promotion of North Carolina Sweetpotatoes and to collect a reasonable royalty or license fee for use of the mark. The Commissioner would be required to remit all royalties and license fees received, less any costs associated with monitoring the use of the trademark, prohibiting the unlawful or unauthorized use of the trademark, and enforcing rights in the trademark, to the North Carolina

# Senate PCS 315

Page 7

SweetPotato Commission for the promotion of North Carolina sweetpotatoes. This section would also direct the Commissioner to appoint a Sweetpotato Advisory Council to give advice on the promotion of North Carolina sweetpotatoes.

## **SOIL AND WATER CONSERVATION JOB APPROVAL AUTHORITY**

**Section 22** would allow the North Carolina Soil and Water Conservation Commission (SWCC) to grant engineering job approval authority to Soil and Water Conservation District technical staff for the planning, design, and implementation of best management practices approved by the SWCC. Under current law, job approval authority can only be granted to Soil and Water Conservation District staff by the USDA Natural Resources Conservation Service.

## **PRESENT USE VALUE DISQUALIFICATION EVENT NOTIFICATION**

**Section 23** would provide that if a tax assessor determines that a property loses its eligibility for present-use value classification for a reason other than failure to file a timely application required due to transfer of the land, the assessor must provide written notice of the decision. The decision would have to be appealed within 60 days after the date of the written notice. A new appeal to a decision of the assessor regarding the disqualification of property for which notice was received would not have to be submitted for subsequent tax years while the appeal of that disqualifying event is outstanding. When a property's present-use value classification is reinstated upon appeal of the disqualifying event, it would be reinstated retroactive to the date the classification was revoked. If the assessor determines during the appeal process that the property has lost its eligibility for present use value classification because of an additional disqualifying event, the assessor would be required to provide written notice of the subsequent disqualification.

This section would be effective when it becomes law.

## **CHANGE NAME OF FOOD PROCESSING INNOVATION CENTER COMMITTEE**

**Section 24** would change the name of the Food Processing Innovation Center Committee, established in the 2017 Appropriations Act, to the North Carolina Food Innovation Lab Committee, to be consistent with the name of the facility at the North Carolina Research Campus in Kannapolis. This section would sunset the North Carolina Food Innovation Lab Committee on January 1, 2020.

## **SOIL AND WATER CONSERVATION CONFIDENTIALITY CHANGE**

**Section 25** would provide that all information that is collected by soil and water conservation districts from farm owners, animal owners, agricultural producers or owners of agricultural land that is confidential under federal or State law must be held confidential by the soil and water conservation districts. This would include (i) information provided by an agricultural producer or owner of agricultural land concerning the agricultural operation, farming or conservation practices, or the land itself, in order to participate in soil and water conservation programs, and (ii) geospatial information otherwise maintained by the district about agricultural lands or operations certain information is provided. This would not include applications for cost share assistance and associated contract documents that require the approval of the soil and water conservation district or the Soil and Water Conservation Commission.

# Senate PCS 315

Page 8

This section would become effective October 1, 2019.

## **CLARIFY PERMITTING FOR CERTAIN SWINE FARM MODIFICATIONS**

**Section 27** would allow the Environmental Management Commission to issue or modify a permit to authorize the construction, operation, or expansion of an animal waste management system serving a swine farm that employs an anaerobic lagoon as the primary method of treatment and land application of waste by means of a sprayfield as the primary method of waste management if the permitting action does not result in an increase in the permitted capacity of the swine farm, as measured by the annual steady state live weight capacity of the swine farm. The system could also meet the performance standards for new animal waste management systems serving swine farms that were enacted in 2007.

## **ENVIRONMENTAL REVIEW COMMISSION STUDY OF DECOMMISSIONING OF UTILITY-SCALE SOLAR PROJECTS**

**Section 32** of the bill would direct the ERC to study matters related to the decommissioning of utility-scale solar projects and report its findings, including any legislative proposals to the 2020 Regular Session of the 2019 General Assembly upon its convening. The study must include analysis of the need for performance bonding to ensure proper decommissioning and closure of future-built solar facilities, whether materials used in utility scale solar projects are classified as hazardous material, the economic feasibility and availability of recycling solar panels, and other issues.

## **ENVIRONMENTAL REVIEW COMMISSION STUDY OF GENERAL PERMIT PROCESS FOR ANIMAL WASTE MANAGEMENT SYSTEMS THAT SERVE SWINE, CATTLE, AND POULTRY OPERATIONS**

**Section 33** would direct the ERC to study DEQ's process for the development and adoption of general permits for animal waste management systems for swine, cattle, and poultry operations, which must specifically include consideration of whether the general permit process should comply with the Administrative Procedure Act, and report its findings and recommendations, including any legislative proposals, to the 2020 Regular Session of the 2019 General Assembly upon its convening.

**EFFECTIVE DATE:** Except as otherwise provided, this act is effective when it becomes law.
